

Experienced Diesel Technician Position Description

Looking to take your career to the next level? As an experienced diesel technician at Lakeside, you'll take control of your career and your income. Join a team of respected industry experts who have been serving the transportation industry in Wisconsin and Illinois for nearly 40 years. We understand what high performing technicians need and we are committed to positive culture and continuous improvement. At Lakeside, we respect our technicians. They are recognized and rewarded for their hard work and valuable skill set. We're looking to add to our talented team. Consider joining some of the industry's best techs! Let's get to the next level!

What you can expect as an experienced Diesel Technician

As an experienced Diesel Technician, you will work independently, performing both major and minor repairs. Diagnosing all-makes commercial trucks and buses and completing maintenance work consistent with Lakeside best practices and industry standards. As an expert, you are considered a lead technician and may serve as mentor for developing diesel technicians at the dealership.

Lakeside Expertise

Lakeside International Trucks is one of the most well-respected International® dealerships in North America. Selling the full line of new International® trucks, Lakeside technicians are prepared to provide maintenance services, troubleshooting and repairs on all-makes and model commercial trucks and buses. Our techs are the most well-respected experts in the industry when it comes to diesel equipment and that's what sets us apart. As a diesel technician at Lakeside, you'll never have to worry about getting bored. The variety of equipment we work on is extensive. It's never the same day twice.

Training

We train for a lifetime. Lakeside understands the need for ongoing training and development and that's why all our technicians are OEM certified and trained. Being experts is who we are and staying on top of the everchanging truck technology means our technicians are always improving their skills and getting better. We take pride in making sure our technicians get the training they need to stay ahead and at the top for a lifetime of success.
