JP12-10000T

This 12 V charger delivers 12 A of precision, multi stage charging plus a 925 A boost start function. The smart charge algorithm prevents overcharging and promotes longer battery life, while the compact chassis and easy grip handle let you move it between bays or on truck service calls.

\$829.00*

SOL1874

A manual-load battery and charging system tester covering 100–1,200 CCA for 12 V lead acid batteries. Includes built in voltmeter and analog gauge for alternator and regulator checks. Heavy duty cables and clamps, plus a rugged steel case, make it a reliable bench or roadside diagnostic tool.

\$122.50*

TOPBT300P

A 12 V digital battery, starter and charging system analyzer with CCA testing up to 2,000 amps. One button operation automates voltage, internal resistance, and crank tests; results display as % state of health and state of charge. Built in printer port lets you document results for pro shop records.

\$109.50*

PART NUMBER	PART NAME	DESCIPITON	SALE PRICE
311250S	MAGNACHARGE 1000S	A 12 V, 25 A multi stage battery charger with a 1,000 A engine start assist. Microprocessor controlled charging stages safely and efficiently bring drained batteries back to full capacity, then maintain them in float mode. Rugged steel enclosure, integrated fan cooling, and overload protection make it ideal for shop or depot use.	\$87.99
311125S	MAGNACHARGE 925	This 12 V charger delivers 12 A of precision, multi stage charging plus a 925 A boost start function. The smart charge algorithm prevents overcharging and promotes longer battery life, while the compact chassis and easy grip handle let you move it between bays or on truck service calls.	\$79.50
311875S	MAGNACHARGE 750	At 7.5 A bulk charge current with a 750 A engine start pulse, this 12 V charger/booster is your lightweight workhorse for smaller diesel and gas engines. Automatic temperature compensation and reverse polarity protection keep both user and battery safe, whether in the shop or out on the lot.	\$77.00

**Magnacharge requires SOL1874 to test batteries for warranty purposes.*
